

# Eastern Distributor Motorway Closure

## Motorway Maintenance Closure 1 August to 2 August 2021

### What is happening?

To ensure the Eastern Distributor Motorway continues to operate safely, the Eastern Distributor tunnel will be closed in both directions to allow essential maintenance activities to occur.

### When is this happening?

The work will take place at night when traffic volumes are lower, for the safety of road users and workers.

Maintenance crews will be on site each night between 10pm and 5am from **Sunday 1 August to Monday 2 August 2021**.

### What impacts will the work have?

The crew will be working through the night so you may hear some noise. We will put all measures in place to minimise noise impacts as much as possible by:

- using non-tonal reversing beepers on all machinery
- turning off equipment and vehicles when not in use
- using noise blankets where possible
- locating noise generating equipment away from residential properties where possible.

### During the closure, you can expect:

- temporary traffic control measures and lane closures near tunnel entry and exit points
- reduced speed limits on the approach to the motorway
- noise and light at the tunnel entry and exit points
- workers, vehicles and equipment moving in and around the work site.

Fully signed detours will be in place, with motorists being diverted onto South Dowling Street. Pedestrian bridges will remain open at all times during the closures.

We appreciate your patience during this essential work.
